BMDC | Paired module trajectories

GO:0070371, ERK1 and ERK2 cascade

GO:0034341, response to type II interferon

mmu04064, NF−kappa B signaling pathway

mmu04668, TNF signaling pathway

GO:0097529, myeloid leukocyte migration

GO:0090025, regulation of monocyte chemotaxis

GO:0032874, positive regulation of stress−activated MAPK cascade

mmu04657, IL−17 signaling pathway

GO:0005125, cytokine activity

GO:0048020, CCR chemokine receptor binding

Module score

CTRL Y180 IMP321

Lines connect the same subject across all three conditions; three subjects per condition.
